ASSIGNMENT – 1

TASK-1 Create a GIT repository named as your enrollment number.

Create 2 folder in your repository named as Assignment_1 and

Assignment_2.

A word file which contains each step of this task :

Step 1: Create a GitHub Repository

- Go to GitHub and log in.
- Click the + icon in the top right and select **New repository.**
- Name the repository with your **enrollment number.**
- Optionally, add a description and choose visibility (Public/Private).
- Click **Create repository.**

Step 2: Clone the Repository

- On your repository page, click the Code button and copy the URL

  (HTTPS/SSH).

- Open your terminal and run.

Step 3: Create the Folders

- Inside your repository folder, create the two folders.

Step 4: Add, Commit, and Push Changes

- Add the new folders to Git.
- Commit the changes with a message.
- Push the changes to GitHub.

Step 5: Verify on GitHub

- Go to your repository on GitHub and confirm the two folders are there. That's it! You've successfully created the repository, added folders, and pushed the changes.
